

Story Telling

Past

Hi, I'm Asrii. Do you know what I think about high school?

Yes, i think it was a very fun time with friends

It was a time of many stories for it

Whether it's sad stories, difficult stories, a naughty stories, happy stories, love stories, friendship stories and many other stories.

If you have to go back in time, it might take a lot of time.

So, I want to tell you a part of my friend's story, we have known each other for quite a long time and we are good friends

Yes, I hope my story can help you to imagine the story of my friend, my friend is named Raja Alamsyah Tahir, i usually call him Raja.

He was born in bogor and Raja loves the cool city of bogor.

Three years of high school have passed, Raja is a person who loves (d) to have fun without any worries (d).

And don't think about what to do tomorrow, just follow the flow of life.

And then he didn't think about tomorrow

In the first year of starting high school lessons, at that time the introduction of new fellow students in the same class, teacher, and older students.

Raja decided to dive into the basics of learning in high school, starting to know physics, biology, chemistry, and then mathematics.

During his high school activities, Raja got new experiences in terms of knowledge, association and friendship.

At that time, raja more often participated in school activities such as Osis, and other academic activities, and even sports activities.

Raja daily life, which is full of meetings and sports training, makes him very enthusiastic about living the life of a high school student

And all the activities that Raja did at that time were supported by his parents.

Besides that, Raja also often looks for some material through the internet and watches video tutorials to help him understand the lessons in high school.

Raja doesn't participate in tutoring activities like his other friends because according to him it only adds to his expenses.

The development of the internet is currently used by the raja very wisely.

In addition, to support, Raja parents also gave Raja money to buy things needed for his practicum while he was in high school

One day I told about my teenager.

At the age of 16, he expressed love for (her) a girl.

I initially feels suitable with the girl and I felt proud as well self-confident.

However, unexpectedly the girl rejected me because she wanted to (wanna) focus on studying to join the dream college.

I'm so sad, but I'm not making it a hindrance or reason for her to grieve continuously.

I said it was a funny experience that I felt at the time of a teenage boy's love story.

Then i'm decided to focus on my dream by studied well and worked on the questions the teacher gave me.

So that i can join the dream campus that is IPB University.

After I graduated from school, I continued to the world of lectures precisely at the IPB campus in the department of computer engineering.

.

On the first day as a prospective new student, I was led, explained, and given an assignment by the seniors.

After the explanation was sufficient, he began to work on each requested command until it was completed.

Right on the day of orientation activities, I got a group called Mega Torka Jayantara with the force name Andamaru Jayantara.

My group was incorporated from several mixed study programs and they were all very compact when following the directions of the seniors.

Until the peak of the event on the seventh day, namely the closing of the MPKMB, all prospective students gathered on the ground to form a Lenticular Picture of 56 formations.

The closing event ended with a band called BANDREK SUSU (Band Rector Suka-Suka).

The first semester of lectures began, Raja Alamsyah was placed in the TEK B1 class together with me (Awal) and Hilmi and Asri.

In the course of Computer Maintenance Installation.

Mr. Bayu Widodo gave the initial assignment, namely to try the Linux OS installation.

Raja didn't find it difficult to follow the material and assignments in this course.

In addition, another course is electronics which is mandatory for all first semester students.

Finally Raja chose a group of 4 with 4 members (Raja, Syifa S, Hilmi, Fachrul).

This electronics project was asked to make an electrical circuit, finally Raja chose a flip flop circuit as the final project of the first semester.

Present

In Semester 5, we meet again in the same class and in the same group as well.

We share stories about past stories, and daily activities. other even though the long distance from the media.

This 5th semester, Raja has many group assignments such as English, Software Engineering, PBW, and Entrepreneurship.

Raja plays an active role in making assignments and discussing with his group members.

In his RPL assignment he created a UI Design based on the Figma website.

He isn't familiar with and makes UI/UX Design.

He is trying to learn to be able to help with RPL group assignments.

In learning UI/UX he's studying to make logins and prototyping them through youtube and now he's making a home page.

That's not the only assignment he's currently working on in semester 5.

He still has a lot of work to do before the time limit runs out.

Not only the many tasks, raja must prepare to find an apprenticeship as a study for an internship.

He was worries if he could not get an internship anywhere and he felt incompetent in his field.

He feels don't have the skills that could highlight his characteristics in computer engineering.

Raja has two options: hardware or network.

He's still undecided because he doesn't have enough funds to build hardware and he doesn't have a device or laptop that has good specs for choosing a network. And he was depressed between the two choices.

But, he will not never give up and try his best until Raja will choose the network.

Future

After graduating from college, Raja plans to find a job.

For new graduates, usually the company will place them at the basic level first, then the company will determine whether they are eligible to be placed in that position or not.

In addition, Raja is also not the type of person who likes to be picky about work. Because he feels he has a responsibility to meet the needs of his younger brother who has just entered high school.

After 3 years working at the company, Raja plans to look for a more challenging job, so that he has new experience and better skills.

Jobs that match his interests and talents will make him happy and optimistic. Raja will try harder if he has found a passion that matches his interests.

After several years working in the position that he's interested in, he strives to reach new positions and challenges than before.

Starting from a Frontend Developer to becoming a UI/UX Designer, until the salary will adjust to the position, that's what he wants.

For the initial stages, Raja is very interested in becoming a Frontend Developer.

The salary of a frontend is quite high, so from that capital, Raja plans to invest his shares in large companies in the capital market such as blue chip stocks, income stocks, and growth stocks.

In addition, Raja plans to open other new businesses such as opening a restaurant, washing shoes, internet cafe, and others.

His biggest dream is to go on Hajj or Umrah with his parents and go on vacation with his family.

Raja

Suatu hari Raja pernah bercerita tentang masa remajanya.

One day I told about my teenager.

Saat usia 16 tahun, ia mengungkapkan cinta pada seorang gadis.

At the age of 16, he expressed love for (her) a girl.

Raja yang awalnya sudah merasa cocok dengan gadis tersebut dan ia merasa bangga dan percaya diri.

I initially feels suitable with the girl and I felt proud as well self-confident.

Namun, tanpa diduga gadis itu menolak Raja dengan alasan mau fokus belajar agar bisa masuk PTN impian.

However, unexpectedly the girl rejected me because her to (wanna) focus on studying in to join the dream college.

Dengan rasa sedih, Raja pergi dari tempat itu namun tidak menjadikan itu penghalang atau alasan dia bersedih terus.

I'm so sad, but I'm not make it a hindrance or reason for her to grieve continuously.

Raja mengatakan itu adalah pengalaman lucu yang dia rasakan saat itu kisah cinta seorang anak remaja.

I said it was a funny experienced that I felt at the time of a teenage boy's love story.

Raja kemudian memutuskan untuk fokus pada impiannya dengan belajar baik dan mengerjakan soal-soal yang diberikan guru kepadanya.

and then i'm decided to focus on my dream by studied well and worked on the questions the teacher gave him.

Sehingga saya bisa masuk ke kampus impian yaitu IPB University.

So that i can join to dream campus that is IPB University.

Setelah Raja dinyatakan lulus dari sekolahnya, ia melanjutkannya ke dunia perkuliahan tepatnya di kampus IPB pada jurusan teknik komputer.

After I graduated from school, I continued to the world of lectures precisely at the IPB campus in the department of computer engineering.

Dihari pertama sebagai calon mahasiswa baru, ia dibina, diberikan penjelasan dan diberikan penugasan oleh kakak pembina.

On the first day as a prospective new student, i was lead, explained, and given an assignment by the seniors.

Setelah penjelasan dirasa cukup, ia mulai mengerjakan setiap perintah yang diminta hingga selesai.

After the explanation was sufficient, he began to work on each requested command until it was completed.

Tepat dihari kegiatan orientasi, Raja mendapat grup yang bernama Mega Torka Jayantara dengan nama angkatan Andamaru Jayantara.

Right on the day of orientation activities, I got a group called Mega Torka Jayantara with the force name Andamaru Jayantara.

Kelompok Raja tergabung dari beberapa program studi campuran dan mereka semua sangat kompak ketika mengikuti arahan kakak pembina.

My group was incorporated from several mixed study programs and they were all very compact when following the directions of the seniors.

Sampailah di puncak acara di hari ketujuh, yaitu penutupan MPKMB, seluruh calon mahasiswa berkumpul dilapangan untuk membentuk Lenticular Picture dari 56 formasi.

Until the peak of the event on the seventh day, namely the closing of the MPKMB, all prospective students gathered on the ground to form a Lenticular Picture of 56 formations.

Acara penutupan itu diakhiri dengan band bernama BANDREK SUSU (Band Rektor Suka-Suka).

The closing event ended with a band called BANDREK SUSU (Band Rector Suka-Suka).

Semester awal perkuliahan dimulai, raja ditempatkan dikelas TEK B1 bersama dengan saya.

The first semester of lectures began, Raja Alamsyah was placed in the TEK B1 class together with me (Awal) and Hilmi and Asri.

Pada mata kuliah Instalasi Perawatan Komputer.

In the course of Computer Maintenance Installation.

Pak Bayu Widodo memberikan penugasan awal yaitu untuk mencoba instalasi OS linux.

Mr. Bayu Widodo gave the initial assignment, namely to try the Linux OS installation.

Raja tidak merasa kesulitan untuk mengikuti materi dan penugasan pada mata kuliah ini.

Raja didn't find it difficult to follow the material and assignments in this course.

Selain itu, mata kuliah lainnya adalah elektronika yang wajib untuk diikuti oleh seluruh mahasiswa semester pertama.

In addition, another course is electronics which is mandatory for all first semester students.

Akhirnya raja memilih kelompok 4 dengan beranggotakan 4 orang (Raja, Syifa S, Hilmi, Fachrul).

Finally Raja chose a group of 4 with 4 members (Raja, Syifa S, Hilmi, Fachrul).

Projek elektronika ini diminta untuk membuat rangkaian listrik, akhirnya raja memilih rangkaian flip flop sebagai projek akhir semester satu.

This electronics project was asked to make an electrical circuit, finally Raja chose a flip flop circuit as the final project of the first semester.

Di Semester 5, kami kembali duduk di kelas yang sama dan di kelompok yang sama juga.

In Semester 5, we meet again in the same class and in the same group as well.

Kami berbagi cerita mengenai kisah masa lalu, dan kegiatan sehari hari lainnya meskipun jarak dari media

We share stories about past stories, and daily activities. other even though the long distance from the media.

Semester 5 ini, Raja mempunyai banyak tugas kelompok seperti Bahasa Inggris, Rekayasa Perangkat Lunak, PBW, dan Kewirausahaan.

This 5th semester, Raja has many group assignments such as English, Software Engineering, PBW, and Entrepreneurship.

Raja berperan aktif dalam membuat tugas serta berdiskusi dengan anggota kelompoknya.
Raja plays an active role in making assignments and discussing with his group members.

Dalam tugas RPL dia membuat UI Design berbasis website Figma.
In his RPL assignment he created a UI Design based on the Figma website.

Dia belum mengenal dan membuat UI/UX Design.
He isn't familiar with and makes UI/UX Design.

Dia mencoba belajar untuk bisa membantu mengerjakan tugas kelompok RPL.
He is trying to learn to be able to help with RPL group assignments.

Dalam pembelajaran UI/UX dia belajar membuat login serta prototypingnya melalui youtube dan sekarang ia sedang membuat home page.
In learning UI/UX he's studying to make logins and prototyping them through youtube and now he's making a home page.

Tidak hanya itu tugas yang ia sedang kerjakan di semester 5 ini.
That's not the only assignment he's currently working on semester 5.

Masih banyak tugas yang harus ia kerjakan sebelum batas waktu habis.
He still have a lot of work to do before the time limit ran out.

Tak hanya tugas yang banyak, Raja harus mempersiapkan diri untuk mencari tempat magang sebagai kajian sidangnya nanti.
Not only the many tasks, raja must prepare to find an apprenticeship as a study for internship.

Ia merasa khawatir jika ia tidak bisa mendapatkan tempat magang dimanapun dan ia merasa tidak kompeten dibidangnya.
He was worries if he could not get an internship anywhere and he felt incompetent in his field.

Ia merasa tidak mempunyai skill yang bisa menonjolkan karakteristik dia di teknik komputer.
He feels don't have the skills that could highlight his characteristics in computer engineering.

Raja mempunyai dua pilihan yaitu memilih perangkat keras atau jaringan.
Raja has two options: hardware or network.

Dia masih bimbang karena ia tidak mempunyai cukup dana untuk membuat perangkat keras dan dia tidak mempunyai perangkat atau laptop yang memiliki spesifikasi bagus untuk memilih jaringan. Dan dia merasa frustrasi antara dua pilihan tersebut.

He's still undecided because he doesn't have enough funds to build hardware and he doesn't have a device or laptop that has good specs for choosing a network. And he was depression between the two choices.

Tetapi, ia tidak akan menyerah dan berusaha semaksimal mungkin dan raja akan memilih jaringan.

But, he will not never give up and try his best until Raja will choose the network.

Setelah lulus Kuliah, Raja berencana mencari pekerjaan.

After graduating from college, Raja plans to find a job.

Untuk lulusan baru biasanya perusahaan akan menempatkan mereka pada tingkatan dasar terlebih dahulu, barulah perusahaan akan menentukan apakah mereka layak untuk ditempatkan pada posisi tersebut atau tidak.

For new graduates, usually the company will place them at the basic level first, then the company will determine whether they are eligible to be placed in that position or not.

Selain itu raja juga bukan tipe orang yang suka memilih-milih pekerjaan. Sebab, dia merasa mempunyai tanggung jawab untuk memenuhi kebutuhan adiknya yang baru masuk SMA.

In addition, Raja is also not the type of person who likes to be picky about work. Because he feels he has a responsibility to meet the needs of his younger brother who has just entered high school.

Setelah melewati masa 3 tahun bekerja di perusahaan, raja berencana untuk mencari pekerjaan yang lebih menantang, sehingga ia memiliki pengalaman baru dan skill yang lebih baik lagi.

After 3 years working at the company, Raja plans to look for a more challenging job, so that he has new experience and better skills.

Pekerjaan yang sesuai dengan bakat dan minat akan membuatnya senang dan optimis. Raja akan berusaha lebih keras jika dia sudah menemukan passion yang sesuai dengan minatnya.

Jobs that match his interests and talents will make him happy and optimistic. Raja will try harder if he has found a passion that matches his interests.

Setelah beberapa tahun bekerja pada bidang yang ia minati, dia berupaya untuk meraih jabatan dan tantangan yang baru dari sebelumnya.

After several years working in the position that he's interested in, he strives to reach new positions and challenges than before.

Dimulai dari seorang Frontend Developer hingga menjadi UI/UX Designer, hingga gajinya tersebut akan menyesuaikan dengan jabatannya, begitulah keinginannya.

Starting from a Frontend Developer to becoming a UI/UX Designer, until the salary will adjust to the position, that's what he wants.

Untuk tahapan awal raja sangat berminat sekali untuk menjadi seorang Frontend Developer.

For the initial stages, Raja is very interested in becoming a Frontend Developer.

Gaji seorang Frontend cukup tinggi, sehingga dari modal tersebut raja berencana menanamkan sahamnya ke perusahaan besar pada pasar modal seperti blue chip stocks, income stocks, dan growth stocks.

The salary of a frontend is quite high, so from that capital, Raja plans to invest his shares in large companies in the capital market such as blue chip stocks, income stocks, and growth stocks.

Selain itu, raja berencana membuka bisnis baru lainnya seperti membuka restaurant, cuci sepatu, warnet, dan lain-lain.

In addition, Raja plans to open other new businesses such as opening a restaurant, washing shoes, internet cafe, and others.

Impian terbesar dalam keinginannya ialah pergi haji atau umrah bersama orang tuanya dan pergi berlibur bersama keluarganya.

His biggest dream is to go on Hajj or Umrah with his parents and go on vacation with his family.

Raja : Where are you going this weekend, Awal?

Raja : Kamu akan pergi kemana akhir pekan ini, Awal ?

Awal : I'm going to the Museum. How about you?

Awal : Aku akan ke Museum. Bagaimana dengan kamu ?

Raja : I don't have any plans yet
